*Everything about the academics is different. The teachers are more engaged in their subject. There is more homework, but it's manageable and the difference in the amount you are learning here is so much greater.*

### › Grade 8 Student

*Coming into BASIS, our son thought of himself as an athlete first and a student second. We always knew that he was capable but he was not living up to his potential. Since he's been at BASIS he's gained confidence as a student himself and he's become an amazing advocate for himself and his own education. So he doesn't "do school" anymore, he embraces it, he has a plan. That has been a joy for us to see.*
