Our seniors have two unique opportunities available to them: The Senior Project and the Senior Research Project. Both projects allow students to propose a research inquiry, execute intensive on-site and off-site research, and present a data-driven conclusion or solution. The Senior Research Project, in addition to documenting their findings, requires students to write a 4,000–5,000 word paper according to a rubric developed by the College Board. Both opportunities support our seniors' nascent sense of investigation and research, and require them to present their findings before their community. Please contact our Admissions team for more information.

During the 2019–2020 school year, our history curriculum was restructured in a way to mirror the spiraled approach that we take in many of our other courses.

The change for the 2020-2021 academic year affects students who will be in grade 7 and grade 10.

Making these changes will require a two-year roll out, with the academic year 2021–2022 having the finalized history sequence. Please see below for more details.
